# NBT National Report

The [NBT National Report 2018](#) is now available on the NBT website.

The report provides an analysis of the 2018 university cohort’s NBT results, and covers candidates who wrote the NBTs between 1 May 2017 and 28 February 2018.

This year, we have also produced a [short clip](#), highlighting some key findings of the report, as well as a “[Highlights Report](#)”, which provides a short summary of the findings.

The report and the clip have been distributed to universities represented under Universities South Africa (USAf).
