### Section E - Statement on Conflict of Interest

The researcher is expected to declare to the Committee the presence of any potential or existing conflict of interest that may potentially pose a threat to the scientific integrity and ethical conduct of any research in the Faculty. The committee will decide whether such conflicts are sufficient as to warrant consideration of their impact on the ethical conduct of the study.

Disclosure of conflict of interest does not imply that a study will be deemed unethical, as the mere existence of a conflict of interest does not mean that a study cannot be conducted ethically. However, failure to declare to the Committee a conflict of interest known to the researcher at the outset of the study will be deemed to be unethical conduct.

Researchers are therefore expected to sign *either* of the two declarations below.

a) As the Principal Researcher in this study (name & surname: \_\_\_\_\_), I hereby declare that I am **not aware** of any potential conflict of interest which may influence my ethical conduct of this study.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**OR**

b) As the Principal Researcher in this study (name: \_\_\_\_\_), I hereby declare that I am **aware** of potential conflicts of interest which should be considered by the Committee:

Signature: \_\_\_\_\_ Date: \_\_\_\_\_
