About eRA

Research at UCT continues to grow year-on-year: every year, more research contracts are signed, and the number of postgraduates and postdoctoral fellows continues to grow. UCT continues to increase our publication count and attract more donations and funding. At the same time, the business of research management is rapidly changing with the exponential growth of big data, open access and international collaboration. Furthermore, universities face additional challenges as governments restrict research funding and donors demand more from research groups. It is clear that supporting the research enterprise of a university is becoming an increasingly complex task. In order to remain on top of our game and continue to make our mark both locally and internationally, UCT is implementing an electronic research administration (eRA) system, to provide technological solutions to the problems we have identified. The cornerstone of the system is Converis, supplied by Clarivate Analytics.

The research project lifecycle was a cumbersome administrative process, made all the more difficult by minimal online systems, duplicate data entry, a lack of templates and many manual steps involving internal mail or hand delivery. The implementation of eRA is changing that, lifting the administrative burden through automation, and streamlining the process at every step of the research project lifecycle.

As the diagram to the left shows, eRA will provide researchers with:

a 'one-stop shop' to manage and track the administrative workflow within a project lifecycle and beyond

user-friendly software that guides them from the point where an idea is born and a funding opportunity identified, through to post-publication with automatic CV updates

streamlined and automated workflows, where all parties involved – including ethics, finance, and research contracts – are automatically notified of a project application coming their way

the opportunity to track their applications and approvals through the automated process, reducing the risk of an application lying unseen in an inbox

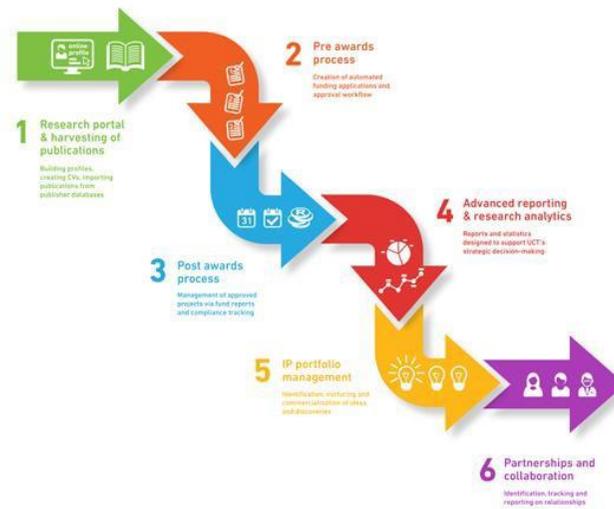

enable researchers to keep on top of their contract compliance requirements and integrate with SAP to track project funds. Through its online portal, researchers can create and manage their CV which they can draw on to apply for grants and funding and use to create a publicly visible profile.

What eRA means for the university

The implementation of eRA is freeing up resources so that UCT can offer more comprehensive research support and more efficient administration. eRA will allow for:

- improved strategic understanding of all research
- improved ability to track research impact and collaborations
- reduced financial risk through improved financial controls
- improved support for researchers, including proposal development, and
- better management of data, analytics and reporting to support strategic decision-making and control.

The implementation of eRA is being overseen by a team of specialists who are working on developing the systems according to UCT's needs, rollout of live modules, training of relevant staff and ongoing help-desk support.

Module 1: Logging on to the eRA system

- **Lesson Objectives:**
- Learn how to log in to the eRA system

The screenshot shows the UCT Research Portal homepage. At the top right, there are links for 'Login' and 'Accessibility'. The main header includes the UCT logo and the text 'UNIVERSITY OF CAPE TOWN' and 'IYUNIVESITHI YASEKAPA • UNIVERSITEIT VAN KAAPSTAD'. Below the header is a navigation bar with links for 'UCT', 'Research support hub', 'Research & innovation', 'UCT libraries', and 'UCT eResearch'. On the left side, there is a vertical menu with links for 'Home', 'People', 'Faculties and departments', 'UCT research outputs', 'Research equipment and services', 'Research keywords', 'SDGs', and 'Support'. The main content area features a 'Welcome to the University's Research Portal' message, followed by a paragraph explaining the portal's purpose and a search bar with a 'General search' label and a 'Search' button.

Access the eRA system by using this link: https://eraonline.uct.ac.za/converis/portal/overview?lang=en_GB

Click on **Login** at the top right-hand corner.

If you are not already logged in to another UCT platform, you will be prompted to enter your UCT credentials to login.

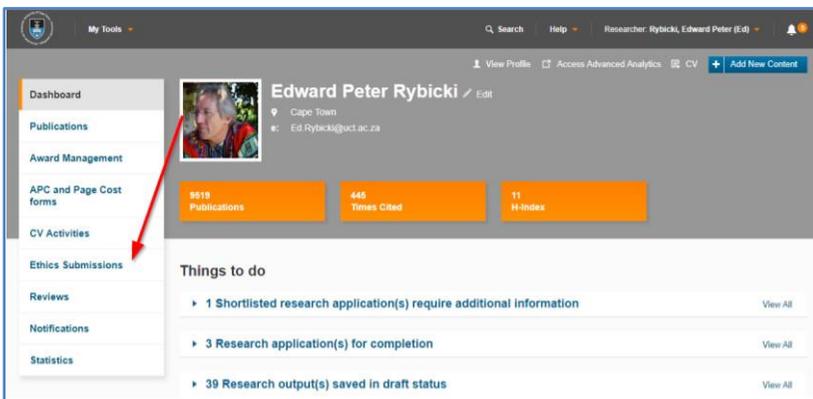

Sign in with your UCT username and password.

Module 2: Differentiation of roles

Lesson Objectives:

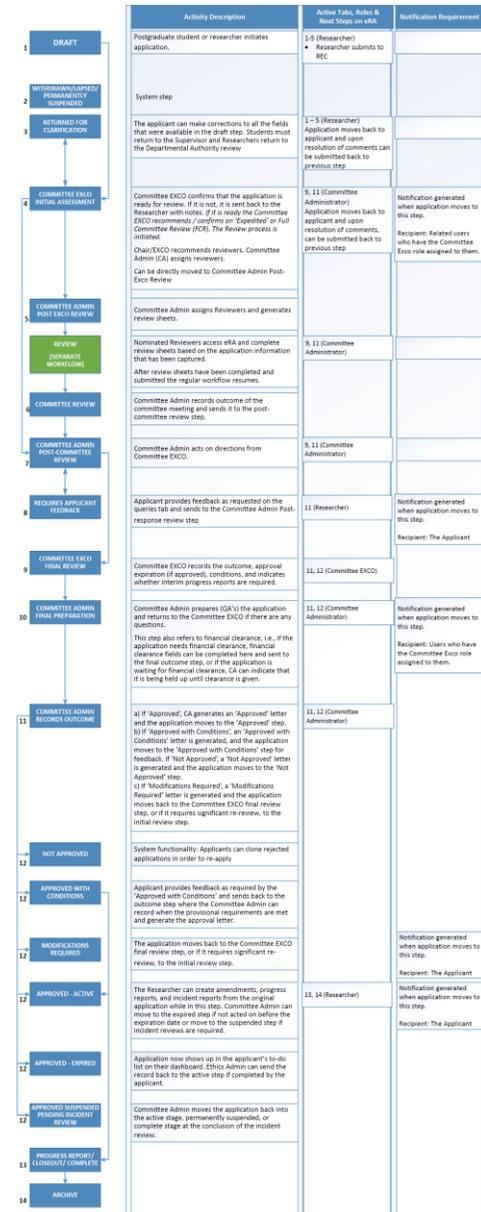

- Learn to distinguish between the different roles associated with the Ethics module
- Learn more about the workflow process for the Ethics Module
- A definition of each role that will interact with the Ethics Administrator module

Dashboards

A screenshot of a researcher's dashboard. The user is Edward Peter Rybicki, located in Cape Town, with an email address of Ed.Rybicki@uct.ac.za. The dashboard features a left-hand navigation menu with the following items: Dashboard, Publications, Award Management, APC and Page Cost forms, CV Activities, Ethics Submissions, Reviews, Notifications, and Statistics. A red arrow points to the 'Ethics Submissions' tab. The main content area displays three orange summary cards: '9519 Publications', '445 Times Cited', and '11 H-Index'. Below these is a 'Things to do' section with three items: '1 Shortlisted research application(s) require additional information', '3 Research application(s) for completion', and '39 Research output(s) saved in draft status'. Each item has a 'View All' link.

The dashboard has the **Ethics Submissions** tab on the left-hand side which will lead you to all Ethics applications that have been submitted. This is a dashboard that the researcher will see. There are other roles that have access to the Ethics functionality.

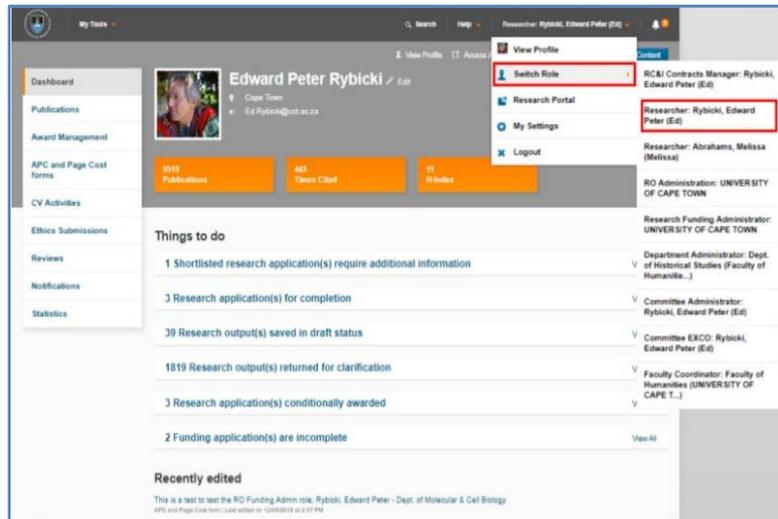

The Workflow: Breakdown

Switching Roles

You can switch to different roles by using the orange down arrow on the top right as shown in the steps below:

1. The Researcher Role

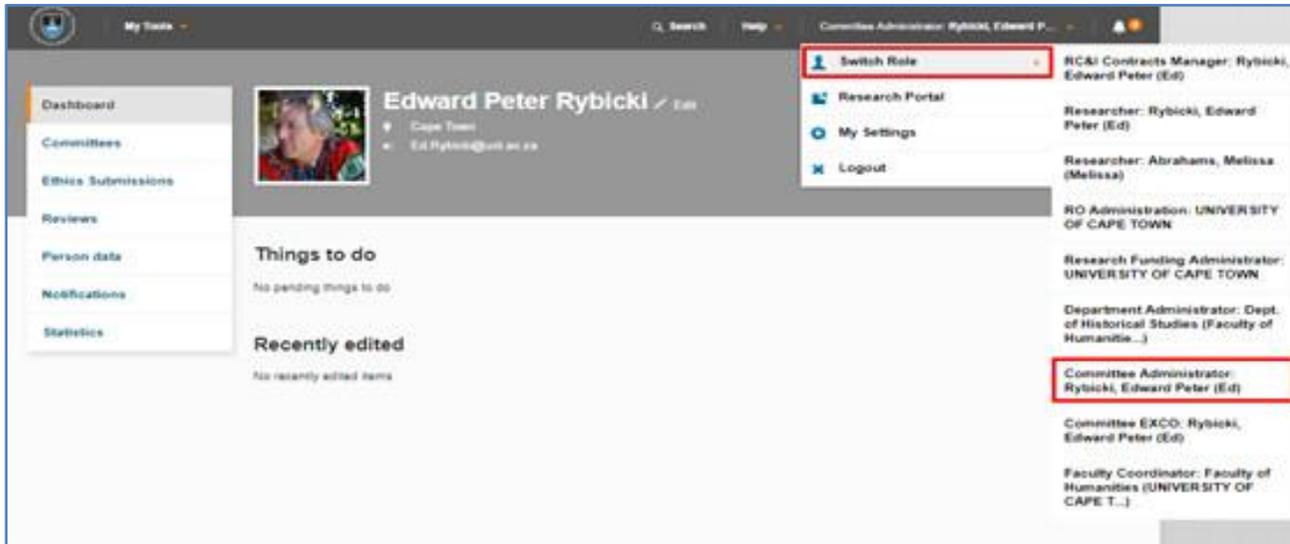

The Ethics process has 3 roles that interact with the application namely:

- **Researcher** (based on the relation to the application form, the Researcher can access the form either as the Ethics applicant, the named HoD to complete the Declaration section of the form, or as a named reviewer)
- **Committee Administrator**
- **Committee EXCO**
- **Reviewer**

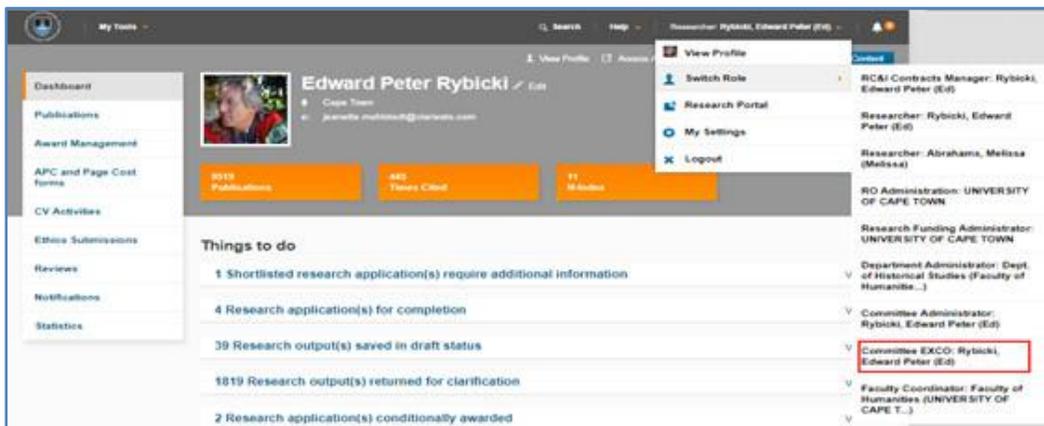

The first time that anyone signs onto the eRA system, they are given the Researcher role by default.

2. Committee Administrator

In order for the system to work correctly, any user who is assigned the **Committee Administrator** role needs to be listed in the Administrator Staff on the related Committee Form.

3. Committee EXCO

Committee EXCO: Assess the outcome of the ethics review process or confirm the outcome of the ethics review process for a particular submission.

A description of each role is listed in the table below:

<i>Role Name</i>	<i>Description</i>	<i>Entry Point</i>
<i>Researcher</i>	<p>Anyone can create an Ethics Application form by virtue of being a Researcher on the eRA system. Once an initial Ethics Application form has moved beyond the <i>Draft</i> step, and for all subsequent submissions for the same study, only those users who are named on the Application Form as members of study staff will have access to make changes to a submission form. There are two other instances in which the Researcher role is required:</p> <ul style="list-style-type: none"> • Online Ethics Application forms require certain declarations to be acknowledged. The person who captures an Ethics Application form needs to select the name of such declarer/s. The existence of the Declarer's name on the online Ethics Application form will give the Declarer the necessary rights to acknowledge the related declaration. • Similarly, Committee Administrators capture online Ethics Review Sheets on which they select the name of the Reviewer. The existence of the Reviewer's name on the online Ethics Review Sheet will give such Reviewer the necessary rights to complete a review on the online form. 	<i>Person</i>
<i>Committee Administrator</i>	<p>The Committee Administrator role is the role required by the Administrators who work in the Research Ethics Committee (REC) office associated with a particular set of Ethics Application forms, e.g., the Administrators who work in the office of the HREC. This role is required in order to orchestrate the progression of an online Ethics Submission through the review process, i.e.:</p> <ul style="list-style-type: none"> • check whether a submitted form has been completed correctly; • submit the form to EXCO in order for EXCO to assess whether the submission can be expedited, or whether it must be subjected to a Full Committee Review; • create Ethics Review Sheets for a particular submission if required, and manage the response to such individual submission reviews; 	<i>Person</i>

Role Name	Description	Entry Point
<i>Committee Administrator (cont.)</i>	<ul style="list-style-type: none"> depending on whether the review track for the submission is expedited or full committee review, manage the workflow through the appropriate steps to arrive at the overall outcome of the ethics review process; create a review response letter to the PI or Applicant providing the overall outcome of the review of the submission (this is done off the system); and finally to attach the review response letter to the submission and save it in the required workflow status that will pass it back to the PI of the study concerned. The Committee Administrator role is also required to maintain the list of EXCO members, and the list of Administrator staff on the related online Committee Form. <p>(NOTE: In order for the system to work correctly, any user who is assigned the Committee Administrator role needs to be listed in the Administrator Staff on the related Committee Form.)</p>	<i>Person</i>
<i>Committee EXCO</i>	<p>The Committee EXCO role, is the role required by the EXCO members of the REC office associated with a particular set of Ethics Application forms, e.g., the EXCO members of the HREC. This role is required in order to perform the following tasks on the system:</p> <ul style="list-style-type: none"> Assign the review track appropriate to an online ethics submission, i.e. the expedited process (no committee review required - usually assigned in the case of low risk research only), or a full committee review (the more commonly assigned track); If deemed a requirement, provide Reviewer/s names for which someone with the Committee Administrator role must create online Ethics Review Sheets; Assess the outcome of the ethics review process (in the case of an expedited review), or confirm the outcome of the ethics review process (in the case of a full committee review) for a particular submission. <p>(NOTE: In order for the system to work correctly, any user who is assigned the Committee EXCO role needs to be listed in the list of EXCO members on the related Committee Form. EXCO members will need to have both the Committee</p>	<i>Person</i>

<i>Role Name</i>	<i>Description</i>	<i>Entry Point</i>
	EXCO role and a Researcher role. The Researcher role is required when they are names as the Reviewer on an Ethics Review Sheet.)	
<i>Reviewer</i>	The Reviewer is recommended by the Committee Exco role as an independent external adjudicator in the review of the researcher’s application. The Committee Administrator appoint the Reviewer once the Exco member has made their recommendations for who should be added to the system as a Reviewer. The Reviewer will receive the respective review sheets once appointed and vet the research ethics application. The reviewer will then complete the review with their suggestions determining whether the application may go forward with being approved or declined.	

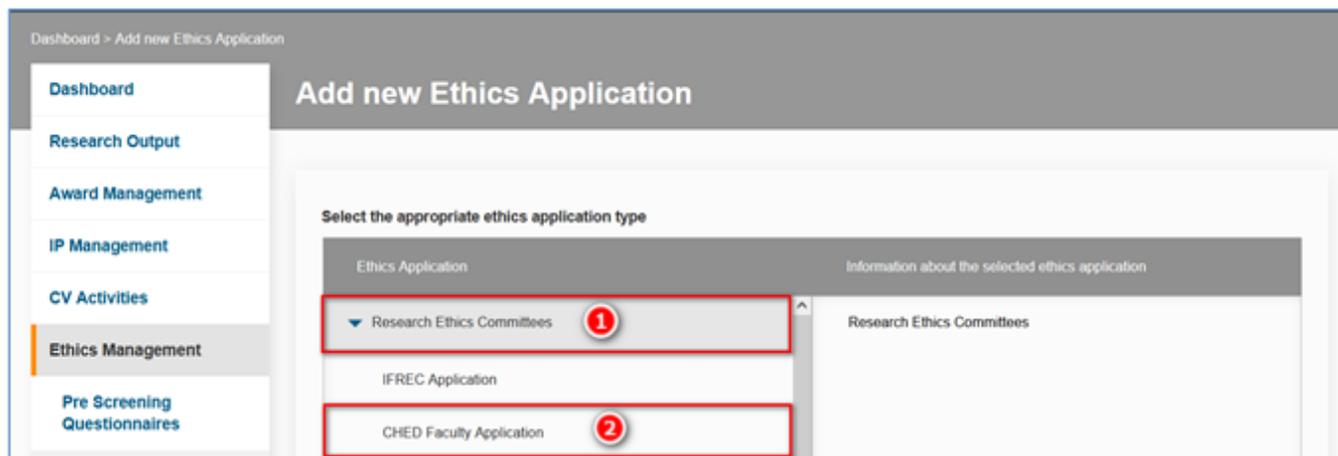

Module 3: Selecting an Ethics application form

Lesson Objectives:

- Learn about the sections of the form which are completed by the Researcher or a person who is associated with the Research study
- Learn about the completion of an Ethics application form and at what point the Committee Administrator interacts with the form.

A screenshot of a user profile page for Khalied Hanslo. The page features a left-hand navigation menu with items: Dashboard, Research Output, Award Management, IP Management, CV Activities, and Ethics Management. The main content area shows the user's name, email (Khalied.Hanslo@uct.ac.za), and a 'Things to do' section. On the right, a dropdown menu is open, listing: Research Output (with a red '1' notification), Award Management, Patent/IP, CV Activity, Ethics Management (with a red '2' notification and a red box around it), Pre Screening Questionnaire, and Ethics Application (with a red '3' notification and a red box around it). The 'Add New Content' button at the top right of the profile area is also highlighted with a red box.

Roles: Researcher

Click on the **Add New Content** button.

From the dropdown, click on the **Ethics Management** tab, then select **Ethics Application**.

A list of all the Ethics application form types will be displayed before you. From the list, click on **Research Ethics committees**, then select the **CHED faculty Application** form type.

Module 4: Completing an Ethics application

Once the relevant form type has been selected, you may go ahead and complete the respective tabs as required. This can be done in the role as a researcher.

The first tab to be completed is the **Key Information** tab. Please read carefully through the requirements of each field and pay special attention to the areas where hint text is provided as a guide to completing the form.

Once you have completed all the information on the first field, please click **Save**. This will allow for the system to generate and assign an ID number for this application.

The screenshot shows the '1. Key Information' tab of an ethics application form. The tab is highlighted with a red border. The form contains the following sections:

- 1.Key Information** (highlighted)
- 2. Project Details
- 3. Research Methodology*
- More ▾

Please complete sections 1 through 5. (For a step-by-step guide [click here](#))

NB: All sections must be completed. If N/A please indicate so. If any section is left blank, your application will be sent back for completion.

Is this specifically for degree or any other qualification purposes?
If you answer yes, and you are both a staff member and a student, please ensure that you are logged in using your student profile.

Yes ▾

If yes, please state level of degree

PhD ▾

Other degree not listed above

Type of ethics review

CHED Faculty Application ▾

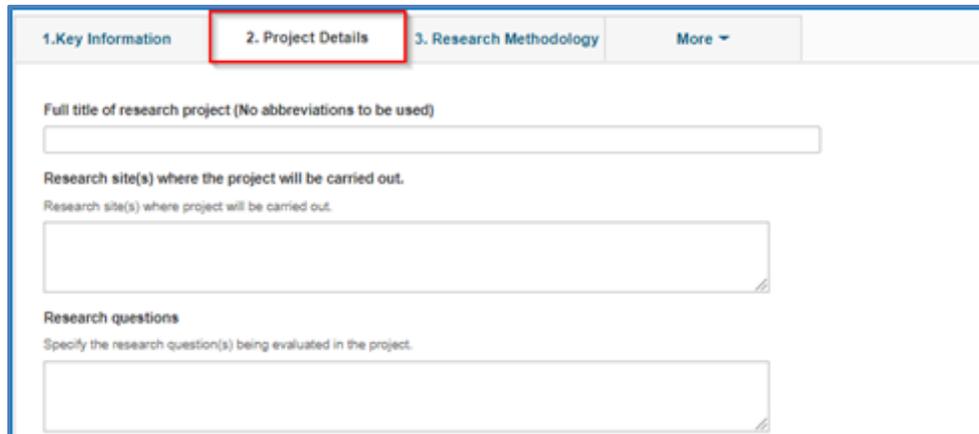

System ID Number

This is a system-generated number used to identify this application

Proposal Reference Number

This is a system-generated number used for approvals

Since you have completed the first tab, you may now click on the **Project Details** tab.

The screenshot shows a form interface with four tabs: "1. Key Information", "2. Project Details", "3. Research Methodology", and "More". The "2. Project Details" tab is highlighted with a red border. Below the tabs, there are three text input fields. The first field is labeled "Full title of research project (No abbreviations to be used)". The second field is labeled "Research site(s) where the project will be carried out." and has a sub-label "Research site(s) where project will be carried out." below it. The third field is labeled "Research questions" and has a sub-label "Specify the research question(s) being evaluated in the project." below it. Each field is empty and has a small cursor icon at the bottom right corner.

Complete the fields as required. Once you have completed all the relevant fields, click **Save** at the bottom of the screen to save the captured information. You should be able to successfully capture information on the template selected.

Capturing Information (**Research Methodology** tab)

1. Key Information 2. Project Details **3. Research Methodology** More ▾

Does your study cover research involving:

Children

Persons who are intellectually or mentally impaired

Persons who are HIV positive

Persons in captivity

Other vulnerable groups
Vulnerable groups include persons who may not be able to provide valid informed consent for whatever reason (poor literacy levels, poor understanding of research-related concepts, undue influence etc) or could be vulnerable to exploitation. There are many examples such as those highly dependent on medical care, persons living with HIV, stigmatized groups, illegal immigrants and many more. In the text box below please identify which vulnerable participant groups that will be recruited into your study and indicate steps taken to minimize risk of harm.

Please detail steps that will be taken to protect vulnerable participants

Will data collection involve any of the following:

Access to confidential information without prior consent of participants

Select yes or no

Participants being required to commit an act which might diminish self-respect or cause them to experience shame, embarrassment, or regret

Select yes or no

Participants being exposed to questions which may be experienced as stressful or upsetting, or to procedures which may have unpleasant or harmful side effects

Select yes or no

The use of stimuli, tasks or procedures which may be experienced as stressful, noxious, or unpleasant

Select yes or no

Any form of deception

Select yes or no

Describe in detail your data collection process for both quantitative and qualitative approaches used. Please include details on:

1. Choice of case studies (if applicable)
2. Target population(s) / Description of participants
3. Sampling procedure/framework (if sampling is required) / Selection of participants
4. Sample size / Number(s) of participants
5. Recruitment of participants (actual fieldwork)
6. Inclusion and exclusion selection criteria.

NB. Omitting any of the above could result in your application being sent back to you.

Will data collection involve any of the following:

Questionnaire

Select yes or no

Survey schedule

Select yes or no

Interview schedule

(eg. Focus group discussion, key informant interview etc)

Select yes or no

Observation schedule

Select yes or no

Psychometric test

Select yes or no

Other/ equivalent assessment instrument

Select yes or no

If NO to any of the above: (a) please justify/explain, and (b) indicate what measures will be adopted to ensure that the respondents fully understand the nature of the research and the consent that they are giving.

Translated informed consent documents will be required where necessary (eg. community based research). Specify what efforts have been made or will be made to obtain informed permission (access) for the research from appropriate authorities and gatekeepers?

Data Management: How will data security be ensured? How will your supervisor have access to the stored data? How will the data be disposed of?

How will the research participant's anonymity be maintained?

How will you give feedback to your research participants once the study has been completed?

Is this research supported by funding that is likely to inform or impact in any way on the design, outcome and dissemination of the research?

Select yes or no

If yes, please explain and provide justification.

Has any organization/company participating in the research or funding the project, imposed any conditions to the research?

Select yes or no

If yes, please indicate what the conditions are.

Navigate to the **Research Methodology** tab.

Complete all the fields provisioned on this tab. Once you have captured all the required information, click **Save** at the bottom of the screen to save the captured information.

1. Key Information	2. Project Details	3. Research Methodology	5. Declaration and Faculty Review ▾
--------------------	--------------------	-------------------------	-------------------------------------

Declaration by applicant:

I have read and understood UCT's Responsible Conduct of Research Policy, UCT's Research Ethics Code for Research Involving Human Participants, UCT's Authorship Practices policy, and the relevant research ethics codes in my faculty and/or department.

I will conduct this research according to all ethical, regulatory and legal requirements as well as national and international codes and guidelines in my discipline.

I undertake to carry out my research in such a way that:

The research will not compromise staff or students or the interests of the university and, will not compromise the participants or the community being studied

The findings could be subject to peer review and will be publicly available

I will respect intellectual property rights and avoid any practice that would constitute plagiarism

I am satisfied that:

I have the time, training, expertise and resources required to conduct this research in an ethical and responsible manner

The research methodology is ethically sound and that where human participants or communities are concerned, that attention has been given to issues of privacy and dignity of the participants and the communities from which they are drawn

Ethical issues and processes regarding data collection, storage, ownership, and protection have been suitably addressed

Navigate to the next tab by clicking on blue drop down arrow on the **Attachments** tab. Select the **Declaration and Faculty Review** tab.

Complete the **Declaration by Applicant** and all related sections up until the **Project completion date** on this tab.

Once you have completed these fields, click **Save & close** at the bottom of the screen. A popup box will appear.

Select next step

Please select the next step below and add an optional comment.

Draft
Choose this status if you wish to continue working on this record at a later stage.

Synopsis

The **Committee Administrator** is required to navigate through the application to check the information which has been captured by the Reviewer.

Select next step

Please select the next step below and add an optional comment.

Additional review post-applicant feedback
Save the form in this status once it is ready to be viewed by the Reviewer

Review complete by Reviewer

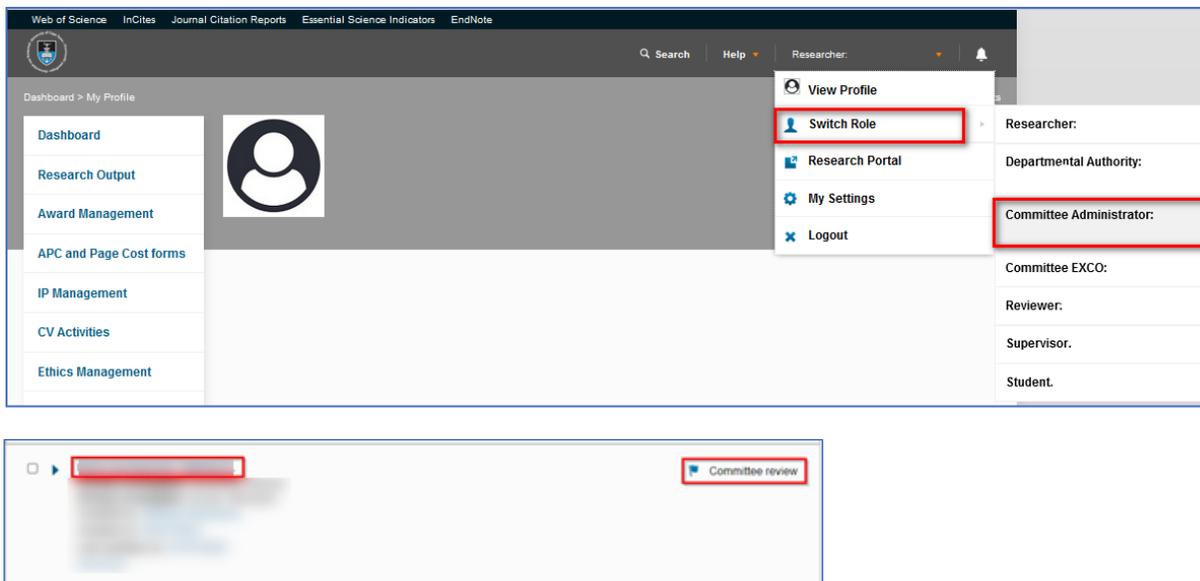

Review processed

Cancel **Done**

After the Committee Administrator has completed checking the review they can click **Save and Close** and the next step to select is **Review processed** or send the form for another review by the Reviewer by selecting **Additional review post-applicant feedback**.

Module 9: Reviewing the application once reviews are completed by Reviewer role

Ensure that you are logged in as the Committee Administrator role. Find the application you would like to review by clicking on the Ethics Management tab and navigating to Ethics Applications on the left navigation bar.

A list of all Ethics applications will be displayed. Select the form you would like to review in the list by clicking on **Edit/Open** to open the form.

The **Committee Administrator** is required to navigate to the **Rec Review** tab by clicking on **More** (or guided by the blue drop down arrow).

A screenshot of a form section titled 'Committee Comments' with a red circle containing the number '4' next to the title. Below the title is the text 'Comments from committee meeting or reviews' and a large, empty text input field.

Look over the reviews that have been completed by the respective **Reviewers**. The **Committee Administrator** can then add comments under the **Committee Comments** field.

Then, click **Save & close**.

Select next step

Please select the next step below and add an optional comment.

A popup box will appear. The **Committee Administrator** can move the form to the **Committee review** stage for clarity or additional reviews if required. If the **Committee Administrator** is happy with what has been captured so far, the form can be sent to the **Requires applicant feedback** stage for further input from the PI; to the **Committee Admin reviews external Information** stage if there are external reviews to be considered; or to the **Committee Admin post response review**. **NB: For the next test, select the Requires applicant feedback stage**

Then, click **Done**.

You will be returned to the list of Ethics applications.

Module 11: Reviewing the form as the PI when returned to you by Committee Admin

Ensure that you have switched to the **Researcher** role. Find the application you would like to review by clicking on the **Ethics Management** tab and navigating to **Ethics Applications** on the **left navigation bar**.

The screenshot shows a web application interface for managing ethics applications. At the top, there is a navigation bar with links for 'Web of Science', 'InCites', 'Journal Citation Reports', 'Essential Science Indicators', and 'EndNote'. Below this is a search bar and a user profile dropdown labeled 'Researcher: F'. The main content area is titled 'Ethics Applications (1)' and features a left-hand navigation menu with options: 'Dashboard', 'Research Output', 'Award Management', 'APC and Page Cost forms', 'IP Management', 'CV Activities', 'Ethics Management', 'Pre Screening Questionnaires', and 'Ethics Applications'. The 'Ethics Applications' menu item is highlighted with a red box. The main content area includes a toolbar with 'Filter', 'Export', 'Report', and 'Deduplicate' icons. Below the toolbar, there is a table of applications. The first application is visible, showing a checkbox, a primary investigator name, and a status of 'Approved active'. The 'Edit/Open' link for this application is highlighted with a red box. The table also shows sorting options ('Updated on descending') and pagination ('10 | 50 | 100' and '1 of 1').

A list of all Ethics applications will be displayed. Select the form you would like to review in the list by clicking on **Edit/Open** to open the form.

Committee EXCO final review

Committee Admin final preparation

Committee Admin records outcome 5

6 Cancel Done

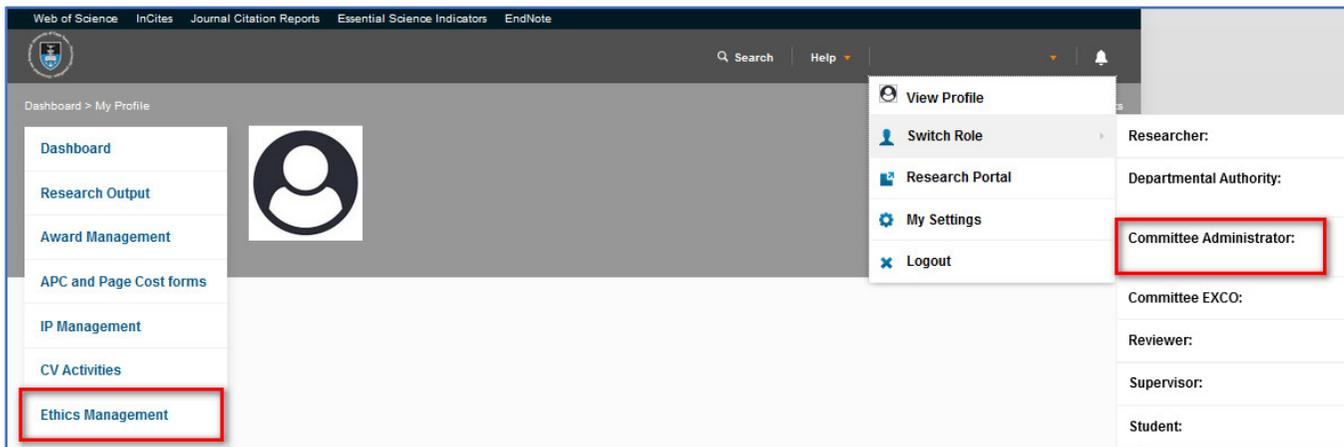

A popup box will appear. The **Committee Admin** can either move the form back to the **Committee EXCO final review** stage if any further clarity/correction is required or if satisfied, the Committee Admin will move the form along to the **Committee Admin records Outcome** stage.

Then, click **Done**.

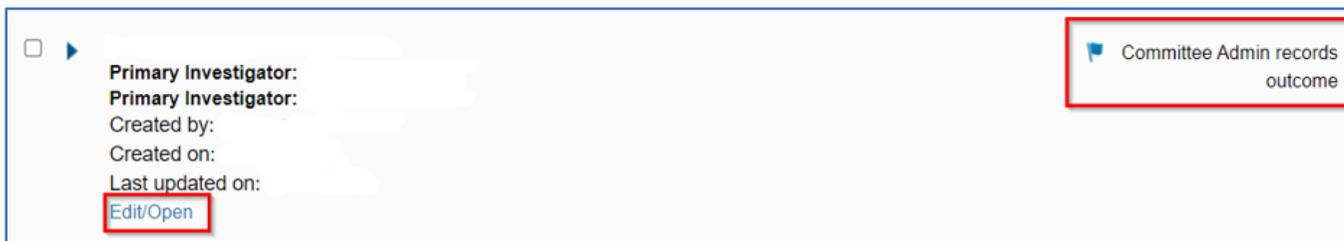

You will be returned to the list of **Ethics applications**.

Module 15: Recording the outcome by Committee Administrator

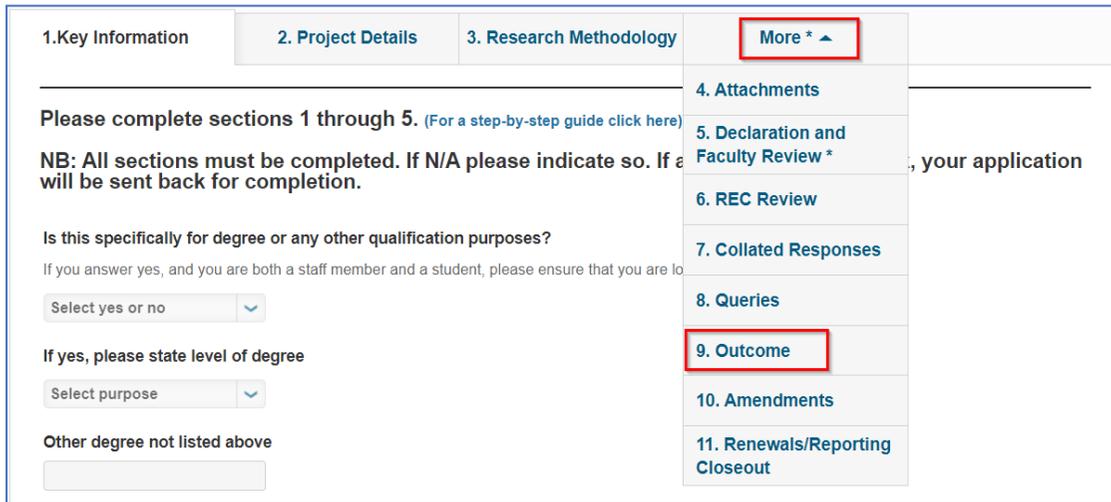

In this module you will learn how the outcome of the assessment of the Ethics Application by Committee Administrator is recorded.

Ensure that you have switched to the **Committee Administrator** role. Find the application you would like to review by clicking on the **Ethics Management** tab and navigating to **Ethics Applications** on the **left navigation bar**.

A list of all Ethics applications will be displayed. Select the form you would like to review in the list by clicking on **Edit/Open** to open the form.

The screenshot shows a web form with a horizontal navigation bar at the top containing tabs for '1. Key Information', '2. Project Details', '3. Research Methodology', and 'More *'. The 'More *' tab is highlighted with a red box. Below the navigation bar, the main content area is partially visible, showing instructions: 'Please complete sections 1 through 5. (For a step-by-step guide click here)'. A note states: 'NB: All sections must be completed. If N/A please indicate so. If a section is not completed, your application will be sent back for completion.' There are two dropdown menus: 'Select yes or no' and 'Select purpose'. A text input field is labeled 'Other degree not listed above'. On the right side, a vertical dropdown menu is open, listing sections 4 through 11: '4. Attachments', '5. Declaration and Faculty Review *', '6. REC Review', '7. Collated Responses', '8. Queries', '9. Outcome', '10. Amendments', and '11. Renewals/Reporting Closeout'. The '9. Outcome' option is highlighted with a red box.

The **Committee Administrator** will navigate to the **Outcome** tab to reflect the decision made by the **Committee EXCO**. Depending on the outcome, a letter will be generated whether the application is conditionally approved or approved, by clicking on the check box under the relevant section. The **Levy payment** and **additional supporting documents** can also be uploaded depending on the outcome.

The screenshot shows a horizontal bar with three buttons: 'Cancel', 'Save', and 'Save & close'. The 'Save & close' button is highlighted with a red box and has a small red circle with the number '5' next to it.

Then, click **Save & close**.

Select next step

Enter a comment about the status change (optional).

- Committee EXCO final review
- Committee Admin records outcome
- Not approved**
- Approved with conditions
- Modifications Required
- Approved active

Cancel Done

A popup box will appear. The **Committee Admin** has the following options available depending on what was decided:

For clarity/correction:

- **Committee EXCO initial assessment**
- **Committee EXCO final review**

Reflecting the decided outcome:

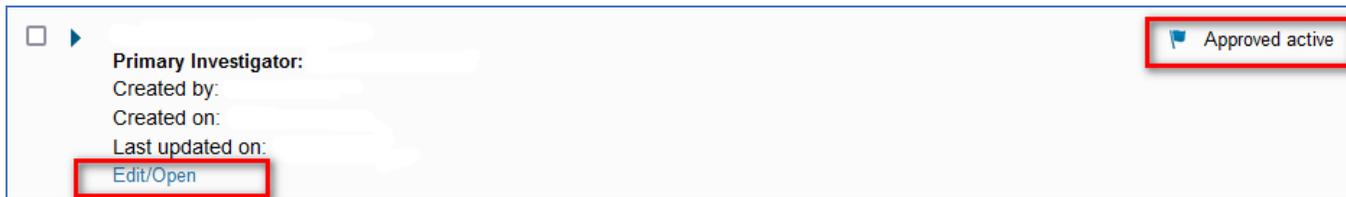

- **Not approved**

- **Approved with conditions**
- **Modifications required**
- **Approved Active**

Select the applicable workflow stage.

Then, click **Done**.

You will be returned to the list of **Ethics applications**.

<input type="checkbox"/>	<p>▶</p> <p>Primary Investigator:</p> <p>Created by:</p> <p>Created on:</p> <p>Last updated on:</p> <p>Edit/Open</p>	<p>Approved active</p>
--------------------------	---	------------------------

When the Applicant logs into eRA after the application has been approved, the outcome will be **Approved active**.
